Dear Peter,

What a winner you proved to be. Not that I had any doubts! Of course I am referring to the unique way you pulled off the MC role at the managed. congress.

From the start you drew in the audience with a combination of your intrigue (people were very interested in you!) and your relaxed, yet polished delivery. Everything flowed smoothly under your stewardship and your anecdotes and jokes retained people's interest (some of the sessions were tough going...). Of critical importance to us you were a genuine ambassador and ably tied together the thread of managed.'s point of difference in the wealth management game.

You should know that my sentiments are expressed on behalf of all our directors. Our board sends its wholehearted congratulations and thanks for what you achieved for our business. That was the feeling even before you caught one of the best flick passes in the business from Leechy. I should have expected nothing less from such a talented sportsman!

Thanks again Peter and we look forward to working with you again.

My best

**Brett Schmidt**
